PRODUCT OVERVIEW

[COPY: 2–3 sentences — drinking-water coagulant application, export positioning, key differentiators. No absolute claims. Content producer to supply.]

NSF/ANSI 60 CERTIFIED

REACH-REGISTERED

EGYPTIAN MANUFACTURE

EST. 1977

CERTIFICATIONS & COMPLIANCE

DRINKING WATER STANDARD

NSF/ANSI 60

Certificate No. C0237336

CHIMIFLOC FR 4014 is certified to NSF/ANSI 60, the benchmark standard for drinking water treatment chemicals in North American and international procurement.

Scope: FR 4014 (Ferric Chloride Solution) · CAS 7705-08-0

EU CHEMICAL REGULATION

REACH-Registered

EC No 1907/2006

FR 4014 holds full REACH registration via appointed Only Representative, enabling direct EU import by water utilities and distributors without additional registration steps.

[CLO to confirm registration number and Only Representative details prior to publication]

TECHNICAL SPECIFICATIONS

PROPERTY	DETAIL
Product name	CHIMIFLOC FR 4014 — Ferric Chloride Solution
Chemical name	Iron(III) chloride (FeCl ₃), aqueous solution
CAS number	7705-08-0
Application	Drinking water coagulation / flocculation treatment
Form	Aqueous solution
Concentration	[COPY — CLO to confirm specification range]
Packaging	[COPY — CLO to confirm IBC / tanker options]
Origin	Egypt — Block #232, Industrial Zone #2, 6th of October City, Giza
Manufacturer	Chimi Art Industries S.A.E.
Established	1977
Traceability	Lot-level — full production and supply chain documentation

SUPPLY RECORD

CONTINUOUS SUPPLY SINCE

1977

Unbroken manufacturing record — 49 years of Egyptian production

EXPORT REGIONS

Europe · Gulf · MENA

Water utilities, distributors and industrial customers

DOCUMENTATION

Lot-traceable

COA, SDS, and compliance docs available on request

Block #232, Industrial Zone #2
6th of October City, Giza, Egypt
